What is inside

Remio helps you learn a little and remember a lot. Make flashcards, study them with FSRS spaced repetition, write notes, and share collections with friends or a class.

PART 1 · WEB

The full product on a desktop browser, one screen per page.

- Public pages
- Sign in and account
- Library and folders
- Studying
- Notes
- Projects and sharing
- People
- Classrooms and live quizzes
- Premium
- Settings
- Staff dashboard (web only)

PART 2 · TABLET

The same web screens at tablet width (834 × 1112), four to a page. Layouts reflow to fit.

PART 3 · MOBILE APP

The Android and iOS app, focused on studying and quick creation: reviewing cards, adding cards, notes with text and photos, offline use and syncing.

PART 4 · WHICH FEATURE LIVES WHERE

A table of what each surface can do, and the features that exist only on the phone.

PART 1

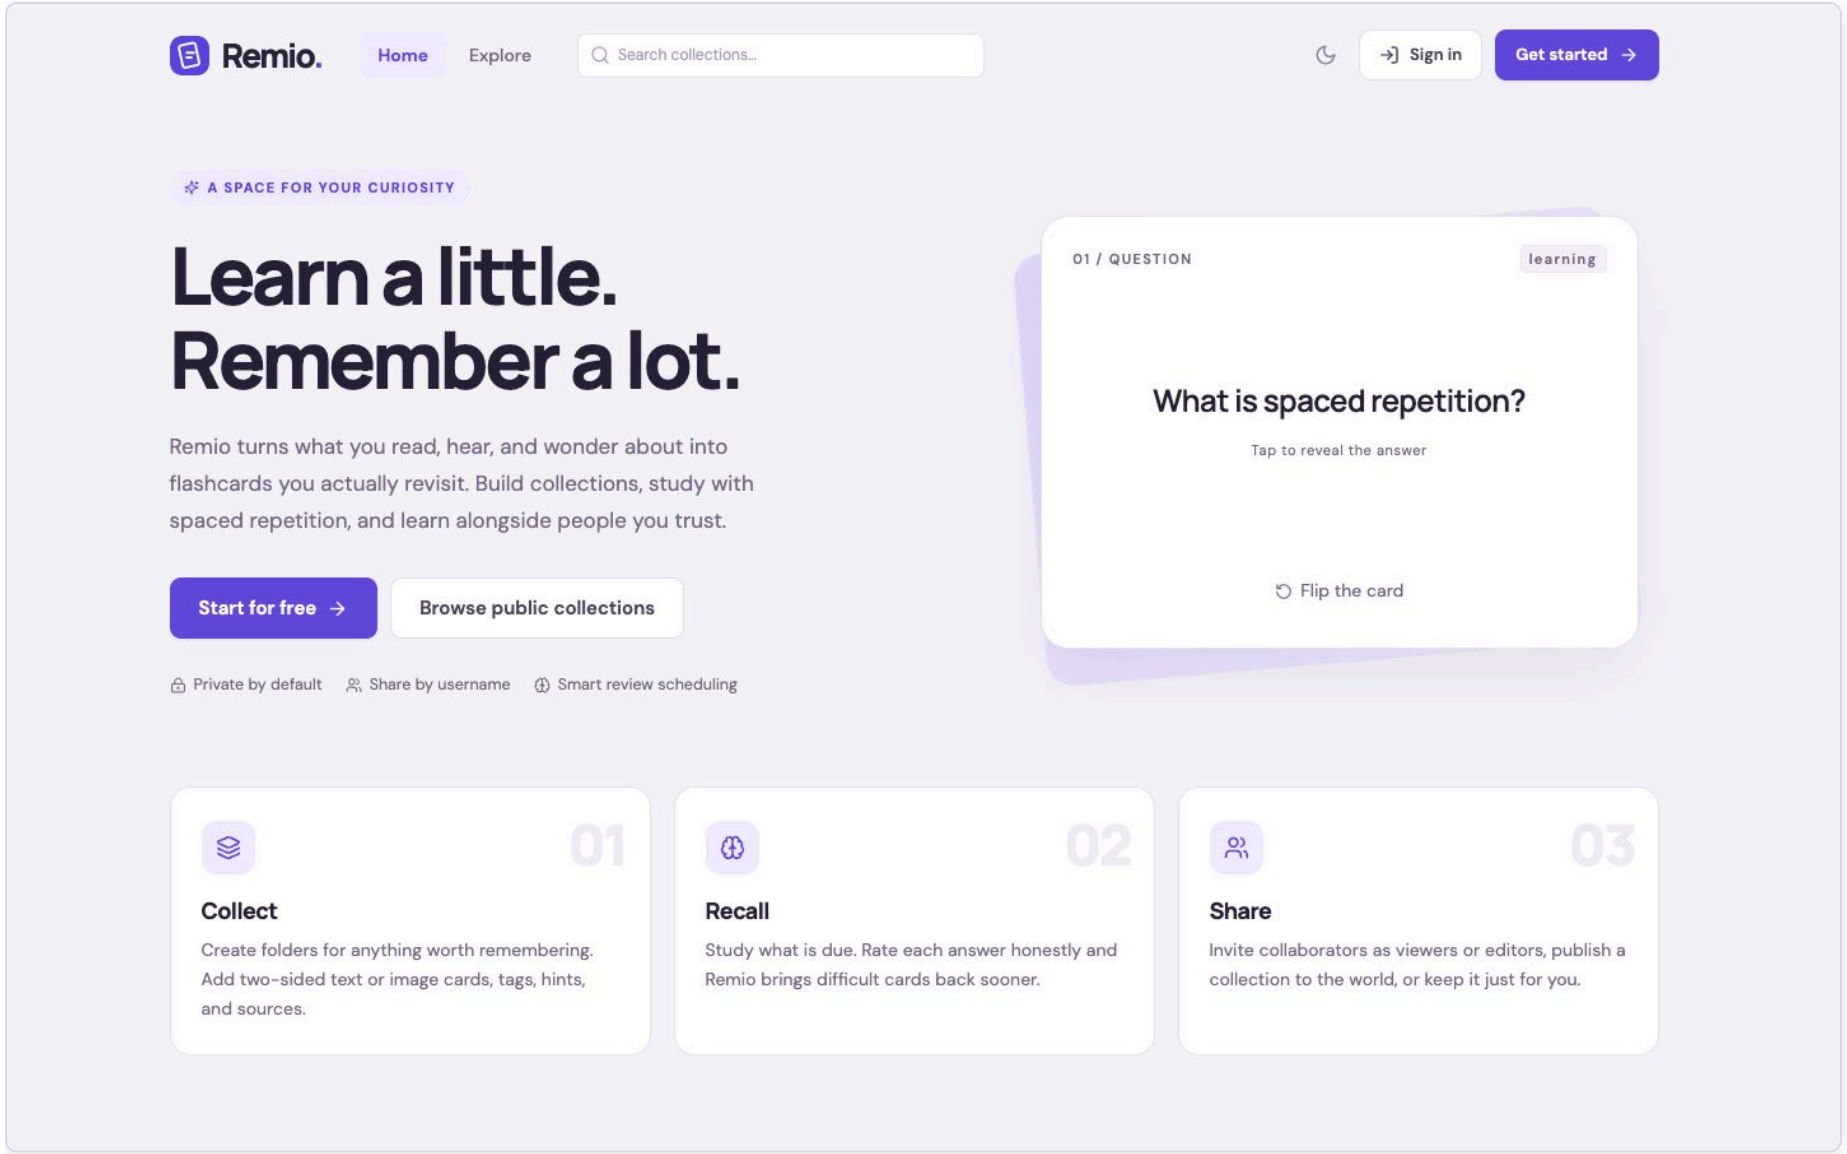

Web

The complete Remio experience in a desktop browser: the library, studying, notes, projects, classrooms, live quizzes, Premium, settings and, for staff, the dashboard.

PART 3

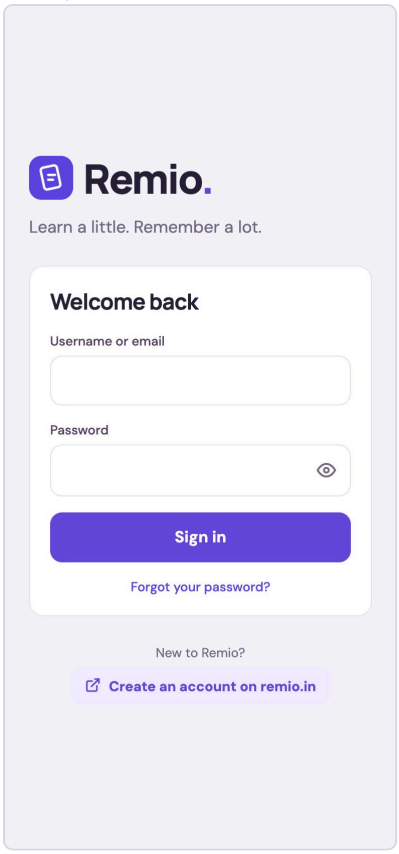

Mobile app

Built for the two things phones do best: reviewing cards and capturing new ones. Heavier jobs such as importing decks, long notes, classrooms and billing stay on the website.

MOBILE APP

Sign in

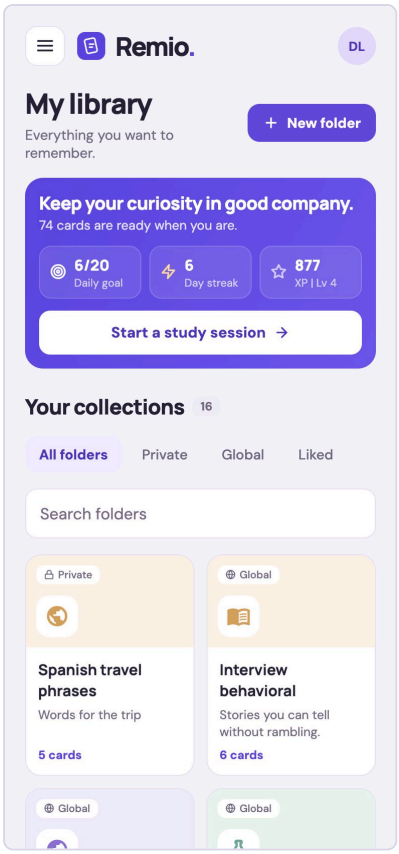

Sign in with email and password, or continue with Google. New accounts are created on the website, where the email is confirmed first.

MOBILE APP

My library

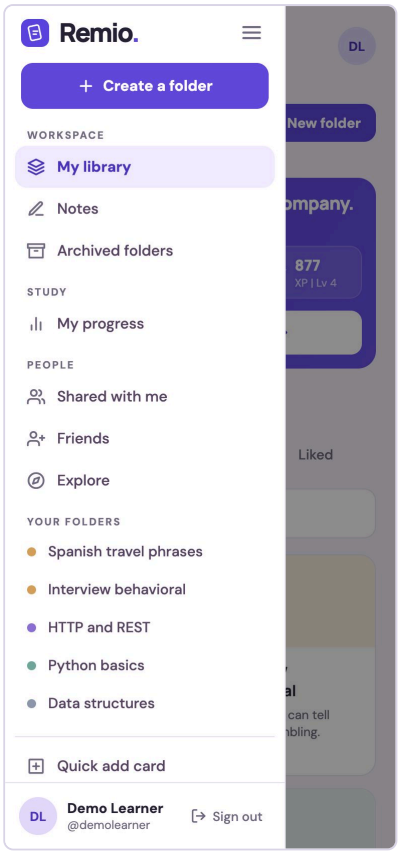

Your folders at a glance, with your daily goal, streak and XP, and one tap to start studying.

MOBILE APP

Navigation menu

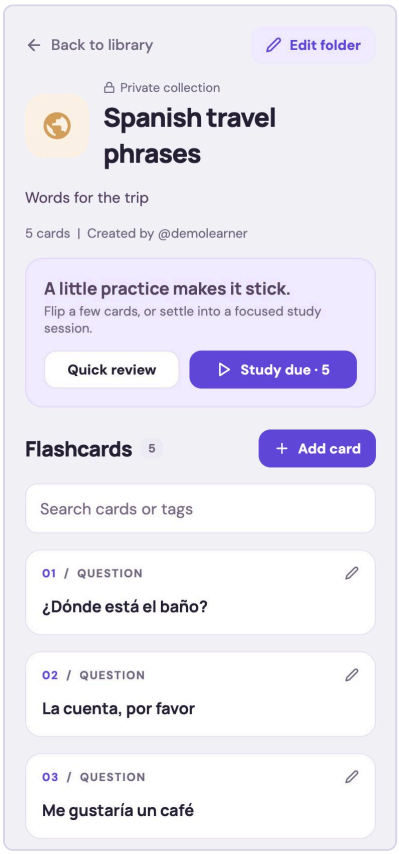

Every part of the app, plus Quick add card and Sync & offline, one tap away.

MOBILE APP

A folder and its cards

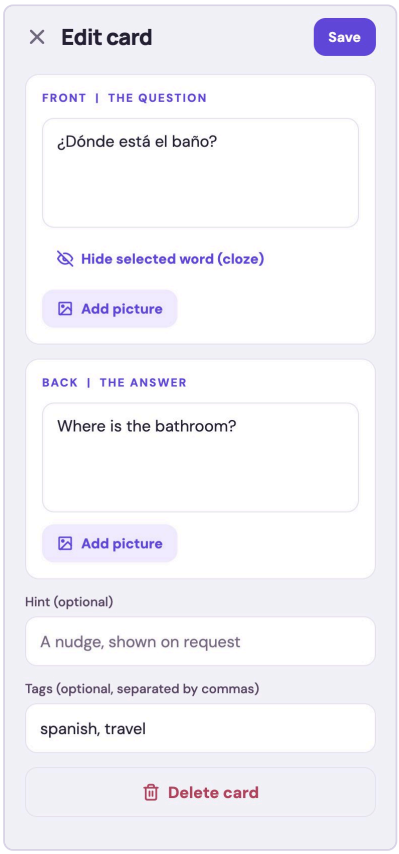

See every card, study the ones that are due, or add a new card.

MOBILE APP

Card detail

Read a card, edit it, and add a picture to either side. Changes save even without a connection.

MOBILE APP

Study session

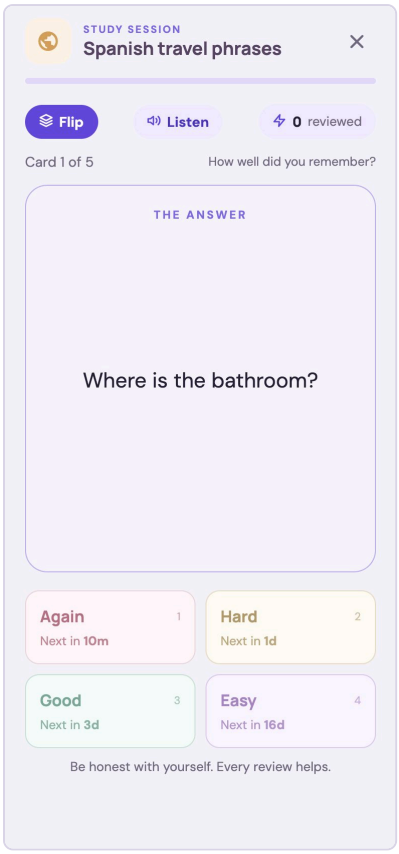

Show the answer, listen to it read aloud, and rate how well you knew it.

MOBILE APP

Study: the answer

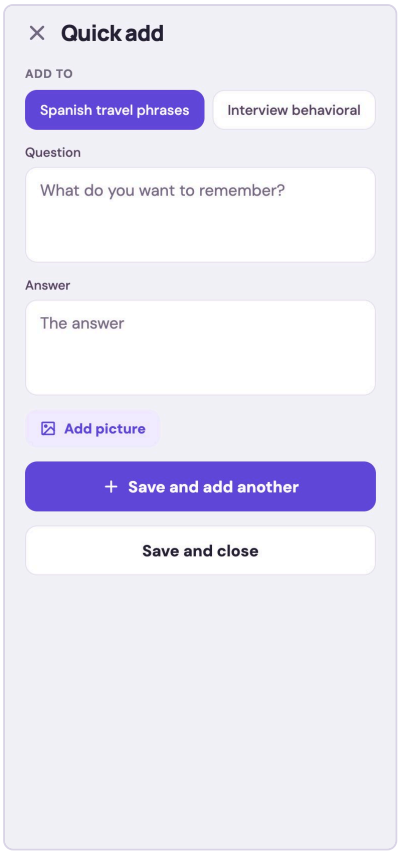

Rate each card Again, Hard, Good or Easy and Remio schedules the next review.

MOBILE APP

Quick add card

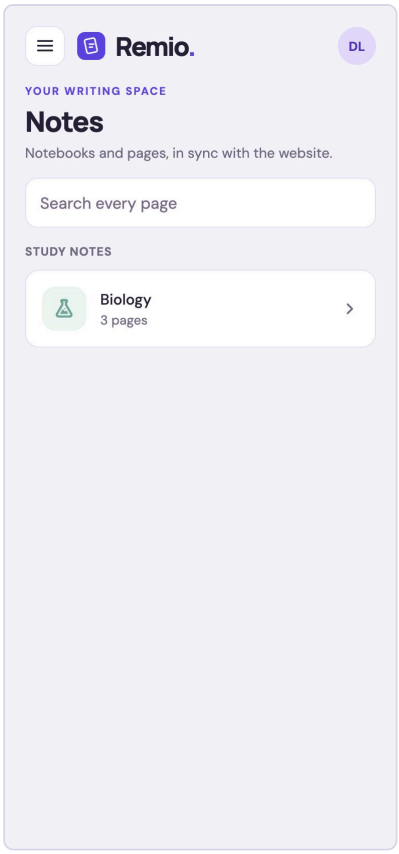

Capture a card in seconds from anywhere: pick a folder, type the front and back, save.

MOBILE APP

Notes

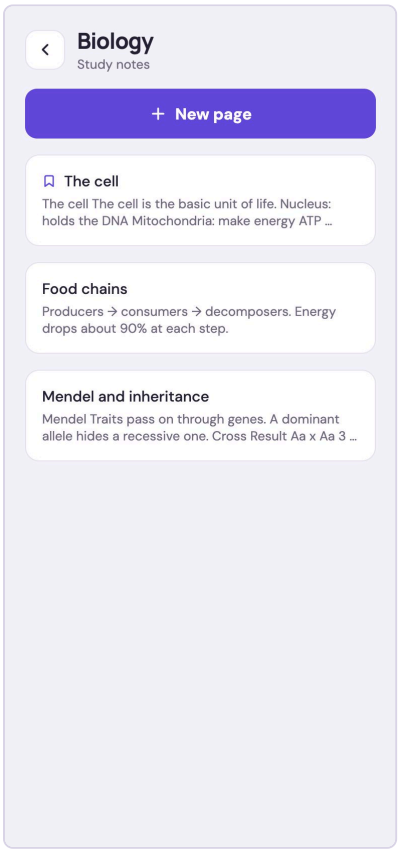

Your collections and notebooks, ready to read or add a page to.

MOBILE APP

A notebook

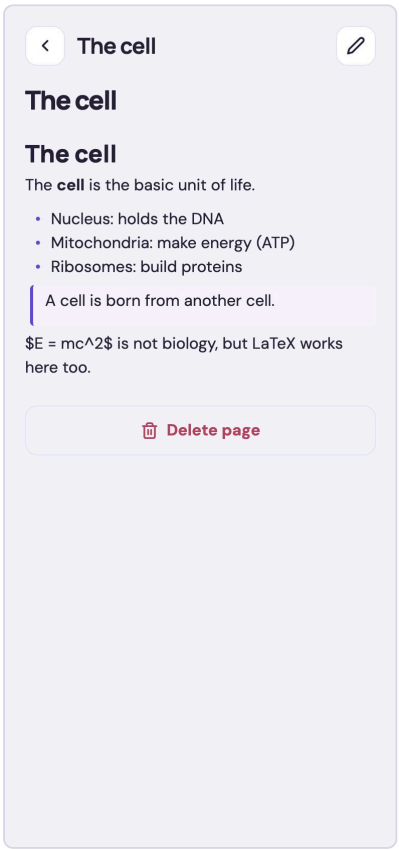

The pages of a notebook, with tags and pins.

MOBILE APP

Reading a page

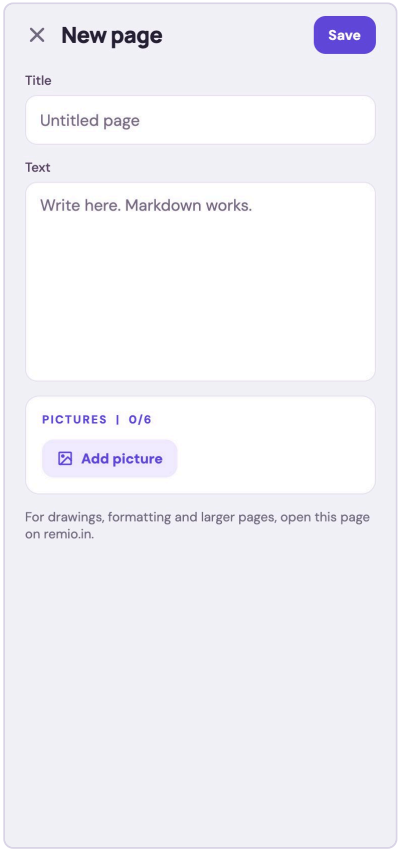

Pages render Markdown, maths and tables.

MOBILE APP

New note

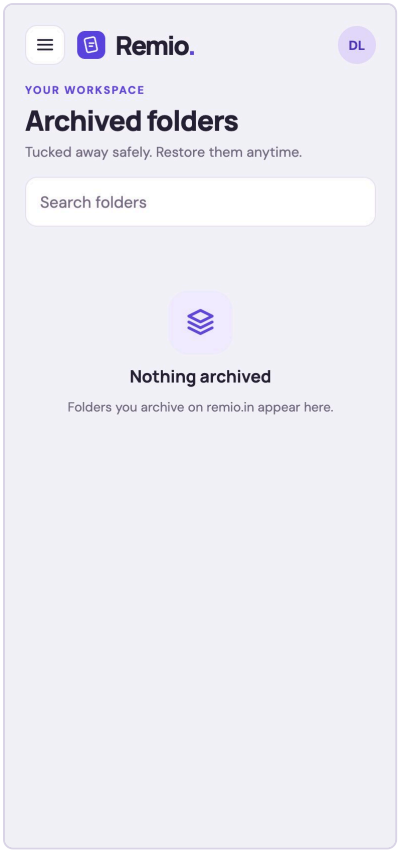

Create a page with text and photos, the same way you make a card. Longer writing is for the website.

MOBILE APP

Archived folders

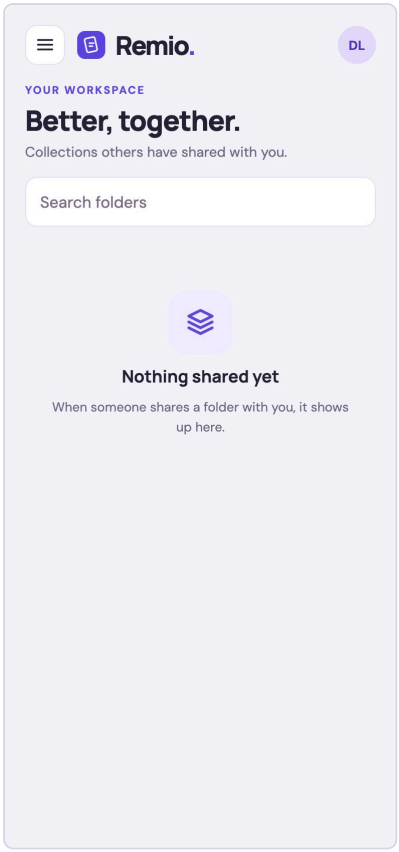

Folders you have set aside, ready to bring back.

MOBILE APP

Shared with me

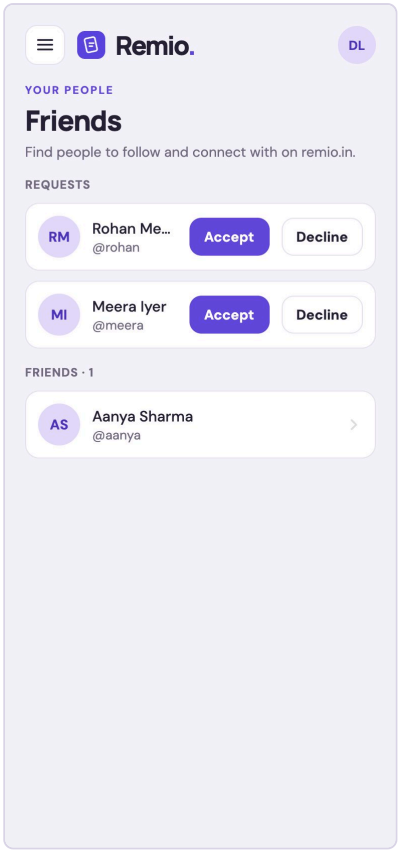

Collections other people have shared with you.

MOBILE APP

Friends

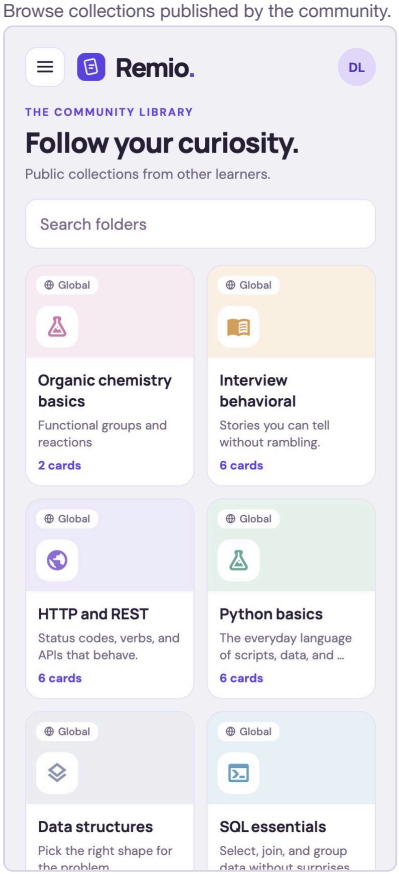

Your friends and the requests waiting for you.

MOBILE APP

Only on the phone

These need the installed app, so they cannot be shown in a screenshot.

- **Offline create and edit.** Add and change cards and notes with no signal. Changes wait in a queue and send themselves, once only, when you are back online. If something cannot merge, you choose Keep mine or Discard.
- **Offline reading.** Anything you have opened, such as your library, a collection's cards or a notebook, stays readable with no signal.
- **Home screen widget.** Shows how many cards are due and your streak without opening the app.
- **Daily study reminders.** A reminder at the time you choose.
- **Listen.** Cards are read aloud, handy when your eyes are busy.
- **Quick add.** Capture a card in a few taps from the menu.
- **Google sign-in.** One tap on phones that have Google Play services.

Staff dashboard roles: a **superadmin** sees everything; an **admin** sees Users, Premium requests and Reports and can only manage accounts below their own role (rank: superadmin > admin > premium > normal).
